Experience

- 2016 – Present **Independent Evaluation Laboratory (IEL), Koç University, Istanbul Turkey**
Director
www.evalresearchlab.com
- 2014 – Present **Koç University, Istanbul Turkey**
Assistant Professor, Department of Psychology
(Received Associate Professorship from the Turkish Council of Higher Education, 2018)
Academic Co-director & Executive Board Member, Koç University Social Impact Forum
- 2018 Summer **Harvard University, USA**
Visiting Scholar
- 2013 – 2014 **Northwestern University, Institute for Policy Research, USA**
Quantitative Methodology Center (Supervisor: Prof. Thomas D. Cook)
Post-doctoral Fellow in Impact Evaluation and Quasi-Experimental Methods
- 2009 – 2013 **Arizona State University, Research in Prevention Laboratory, USA**
Graduate Research Associate in Advanced Quantitative Analysis and Evaluation

Education

- 2009 – 2013 **Ph.D. in Quantitative Research Methods**
Department of Quantitative Psychology, Arizona State University, USA
Committee: David P. MacKinnon (Chair), Leona Aiken, Stephen West, Roger Millsap
Dissertation title: Estimating causal direct and indirect treatment effects in the presence of post-treatment confounders
- 2004 – 2006 **M.A. in Developmental Psychology**
Koç University, Istanbul, Turkey
- 2001 – 2004 **B.A in Economics,**
Koç University, Istanbul, Turkey

¹ 1st among Turkish Universities according to Times Higher Education World University Rankings.

Research Interests

- Advanced quantitative research methods and experimental & quasi-experimental design.
- Large scale data analysis to inform policy and interventions.
- Evaluation and impact maximization of interventions and policies.
- Transportability and adaptability studies to bring effective interventions to countries different from where they originated.

Selected Applied Experience

Research in Prevention Laboratory (RiPL), Arizona State University, (2009-2013)

Graduate research assistant for Prof. David P. MacKinnon

- **Habitual and Neurocognitive Processes in Adolescent Obesity Prevention.** *Funded by NIH.* Data analyst and methodologist for a multiple-studies project that included computer intensive assessment methods to develop an evidence-based obesity prevention program. Provided technical input into sampling, indicator and questionnaire development, quantitative data analysis, and report writing. Analysis topics included multilevel power analysis to determine sample size, psychometric analysis of questionnaires, latent profile analysis, and multi-group structural equation modelling.
- **Promoting Healthy Living: Assessing More Effects (PHLAME).** *Funded by NIH.* Data analyst and methodologist for seven-wave longitudinal data on the evaluation of a health promotion program in US. Provided technical input into literature review, theoretical model building, quantitative data analysis, and report writing. Analysis topics include multilevel analysis, missing data analysis with categorical outcomes, Bayesian mediation analysis, and longitudinal models, and quantitative analysis of a data coming from a qualitative sub-study. The project involved team working and collaboration in a multi-cultural environment with researchers from diverse disciplines and research centers.

Institute for Policy Research, Northwestern University, (2013-2014)

Post-doc researcher under the supervision of Prof. Thomas D. Cook. *Funded by IES.*

- Conducted research on the development and testing of a new quasi-experimental technique: Comparative Regression Discontinuity Design. Applied the new analysis methods to large-scale national datasets such as the US National Head Start Impact Study promoting child development and US Comprehensive Teacher Induction Study promoting student achievement.

Education Volunteers Foundation of Turkey (TEGV), Istanbul Turkey, (2015-2017)

- Principal academic consultant and supervisor for the longitudinal impact evaluation of TEGV after-school programs given to disadvantaged children in 20 cities across Turkey. Determined the targeted indicators and supervised the planning, design, and implementation of the evaluation. Provided significant technical input into survey development and sampling strategy. Conducted a propensity score matching analysis segregated by gender and has written the final report.

Mother-Child Education Foundation (AÇEV), Istanbul Turkey, (2015-2016) *Funded by Bernard van Leer Foundation.*

- Principal methodological investigator for a comprehensive project on the State of Fatherhood in Turkey. The project had a mixed design involving qualitative and quantitative methods and gathered disaggregated data from a nationally representative sample of fathers in Turkey. Provided significant input into the development of a theoretical model identifying risk and protective factors for positive fathering, development of the survey including information about the household and appropriate parenting scales, sampling strategy, psychometric analysis of scales, and data analysis.

TOHUM Autism Foundation (*Funded by Social Impact of TANAP Energy - Trans Anatolian Natural Gas Pipeline Project*) (2017 - Present)

- Independent evaluator for the Autism Training Project conducted across 11 cities located at the TANAP pipeline in Turkey. Determined evaluation hypotheses, the targeted outcome indicators, conducted literature review, prepared the questionnaires, and supervised the full planning, designing, and implementation of the evaluation.

Koç University Social Impact Forum (KUSIF), Istanbul Turkey, (2014-present)

- Consultant to KUSIF on several projects on advocacy and capacity building for social impact evaluation in Turkey. Example of a completed project is “Improving social impact of Turkish women's NGOs: Developing a shared measurement approach” (*funded by the MATRA program of the Consulate of Netherlands*).

Jacobs Foundation Marbach Residency Fellowship (August, 2015). Project title “Towards optimised reach and effectiveness of parenting interventions to prevent violence against children” in collaboration with Prof. Frances Gardner from Centre for Evidence based Intervention, Oxford University.

- Consultancy on implementing integrative data analysis with indirect effects. The project involved analyzing the effectiveness of an evidence-based parenting intervention by aggregating data coming from 14 randomized trials conducted across Europe.

Independent Evaluation Laboratory, Koç University, Istanbul Turkey, (2016-present)

- Director of projects on developing quantitative analysis methods, analyzing large-scale datasets to inform evidence-based policy making, and testing intervention effectiveness by answering key questions about for whom, how, and why they work.
